Aug 7, 2024

Hailey Thomas

has successfully completed the online, non-credit Professional Certificate

Microsoft Power BI Data Analyst

Did you know data analysis is among the top 10 most in-demand skills of 2023? And Microsoft Power BI is the leading data analytics, business intelligence, and reporting tool in this field. The role of a Power BI data analyst includes working closely with business stakeholders, collecting data, performing analyses, creating visualizations, & presenting actionable data-driven insights. You will engage with the key concepts of Power BI, transforming data into meaningful insights and creating compelling reports & dashboards. You will learn to prepare data in Excel for analysis in Power BI, form data models using the Star schema, perform calculations in DAX, & more. When you complete this Professional Certificate, you'll have tangible examples and be prepared to take the Microsoft PL-300 Exam
